

Blue Cross and Blue Shield of Illinois Provider Manual

**HMO Scope of Benefits Section** 

Blue Cross and Blue Shield of Illinois, a Division of Health Care Service Corporation, a Mutual Legal Reserve Company, an Independent Licensee of the Blue Cross and Blue Shield Association

## **Blood and Blood Derivatives**

## **Benefit**

Blood related services are covered when determined medically necessary, which includes the following:

- Blood and blood derivatives, plasma, plasma expanders, and other blood elements and derivatives
- Use of blood transfusion equipment
- Administration of blood, including blood typing and cross-matching
- Blood processing
- Expenses incurred in obtaining blood

## Interpretation

Blood components include frozen red cells; fresh, frozen, or liquid single donor plasma, cryoprecipitate, leukocyte poor blood, packed red cells, platelet concentrate, leukocyte concentrate, and plasma.

Blood derivatives extracted from whole blood or manufactured are utilized as drugs to treat specific conditions. Blood derivatives are covered as injectable drugs (see separate benefits interpretation on Drugs).

Benefits are also provided for Rho(D) Immune Globulins as drugs (such as RhoGAM, Gamulin Rh, Hyp Rho-D) and for FDA-approved blood substitutes.

Donation and storage of autologous blood (blood that member donates for his/her own later use) is covered for use in elective surgery that is scheduled. Storage of either autologous or non-autologous blood for unforeseeable surgery, emergencies, or other reasons is not in benefit.

Paid by	Professional Charges:	IPA
	Inpatient Facility and/or Outpatient Surgical Facility Charges for Administration of Blood	
	Derivatives or Blood Components	HMO
